- 04 - DABC Licensing & Compliance System
- 05 - Carillon Financials System
- 06 - Surveillix Video Surveillance Systems
- 07 - DABC I.T. Disaster Recovery Plan
- 08 - Special Billing Agreement: DABC-Project overtime for DTS Staff

PERFORMANCE

As part of the Governor's efforts to reduce costs, support the green initiative, and improve operating efficiency DTS will continue to optimize its environment through FY 2011.

As we continue optimization of IT services, DTS recognizes that the Department of Alcoholic Beverage Control has unique IT requirements and skill requisites necessary to support the agency's business services.

It is the responsibility of the DTS IT Director assigned to the Department of Alcoholic Beverage Control to ensure the unique IT skill sets required to support the Department of Alcoholic Beverage Control are identified in order for DTS to provide the resources essential for the Department of Alcoholic Beverage Control business success.

DTS is therefore committed to support the agency IT Director by providing the skills and services necessary to enable the Department of Alcoholic Beverage Control business success.

With this scenario in place, DTS commits to delivering services as defined in this SLA and applicable product descriptions, including meeting the defined service level metrics.

While service-specific metrics may be defined in individual product descriptions, the Department of Alcoholic Beverage Control IT Director and DTS Chief Operating Officer will meet at least quarterly to review the following high level metrics as key indicators:

- First Call Problem Resolution Rate
- Responsiveness to Critical Needs
- Agency Key Business Application Availability as Identified in this SLA
- Agency Customer Satisfaction

In addition to the quarterly review of measures the Department of Alcoholic Beverage Control and DTS Executive Director/CIO will meet annually to review DTS performance levels and to review the performance of the IT Director.

DTS remains committed to helping the Department of Alcoholic Beverage Control meet its business objectives and to meeting or exceeding the performance standards achieved in FY-10.

ACCOUNTABILITY

The IT Director, David M. Willis, assigned to the Department of Alcoholic Beverage Control will:

- Ensure the agency's business and technology services requirements are met.

- Coordinate and negotiate the development of proposed Agency Service Level Agreements (SLA) and ensure concurrence with the SLAs on behalf of the agency.
- Ensure that all DTS services adhere to requirements defined in the SLAs. Track and Report performance and effectiveness of delivered services.
- Ensure Agency projects are defined and completed according to time, budget and scope commitments. Track and Report status of projects using DTS approved methods and tools.

This individual will continue to report to the Executive Director of DTS to ensure easy access for escalation should service delivery not meet expectations. DTS will commit to consulting with the Department of Alcoholic Beverage Control for any change or reassignment of the Agency IT Director.

ENTERPRISE PRODUCTS AND SERVICES

DTS provides approximately 68 enterprise products and services with established rates, descriptions, and service metrics. For more complete information, visit the DTS Web site at dts.utah.gov select "Services" or call your assigned DTS Customer Relationship Manager or other DTS contact. If you are not sure whom to call, contact the DTS Customer Support Center via the Web or at 801-538-3440 for assistance. The list includes products such as those shown below.

SECURITY AND CONFIDENTIALITY

All DTS staff that perform work for the Department of Alcoholic Beverage Control will be subject to the same confidentiality requirements expected of the Department of Alcoholic Beverage Control agency employees. DTS staff whose primary work location is at the Department of Alcoholic Beverage Control facility will submit to the

confidentiality requirements of agency staff, including signing of confidentiality agreements and participation in related training.

Further, all DTS staff assigned to provide services to the Department of Alcoholic Beverage Control will complete a background check. The results of the background check must meet or exceed the requirements of the Department of Alcoholic Beverage Control.

STANDARD PROCESSES

Change Management

Standard DTS Change Management processes apply to all products governed by this agreement.

Security Infrastructure

DTS provides basic security services which include perimeter firewall protection, intrusion detection, whole disk encryption, secure email, anti-virus, anti-spyware, web content filtering, and monitoring and notification for the State of Utah wide area network.

Rates and Billing

All products for which standard rates have been established will be billed in accordance with the current Enterprise Service Rates as established by the DTS Rates Committee. Placement of an order or a request for, or acceptance of, delivery of a standard product or service by the Department of Alcoholic Beverage Control constitutes an agreement to abide by the terms of the associated product description, including billing. Acceptance of such an order or request by DTS constitutes an agreement to provide the product or service as described in the associated product description. All other products will be provided and billed in accordance with a negotiated Memorandum of Understanding (MOU), Special Billing Agreement (SBA), or other agreement. Billing will continue until the agency enters an order to terminate the service with an effective date or until the agreement's end date is reached.

Purchasing

Pursuant to Utah Code Authority 63F-1-205/206 and DTS Rule R895, the Chief Information Officer (CIO) has supervision and control over all Information Technology contracts and purchases for the executive branch agencies. The CIO may delegate the authority to make small purchases to the agencies, but this delegation must be in writing and may be limited as directed by the CIO. In order to comply with this mandate all IT purchases must be implemented via the DTS purchasing process in Remedy.

Service Desk

In order to track, report, and improve DTS support to the agencies it is necessary for all requests and/or incidents to be made through DTS' enterprise service desk.

DEPARTMENT OF TECHNOLOGY SERVICES RESPONSIBILITIES

The Department of Technology Services agrees to:

- Arrange, approve, and provide all in-state and out of state travel for DTS employees.
- Provide current expense items for DTS staff assigned to the DABC. This includes the replacement of furniture, telephones, printers, fax machines, and office supplies (excluding office space, which will be provided by the agency).
- Provide and maintain DTS employees with desktop and laptop computers, monitors, and peripheral equipment, including a desktop standard configuration for each work station, and software tool kit as required by the business needs of the agency.
- Provide technology training for DTS employees.
- Reimburse the Agency up to \$200 per DTS employee / per year for office supplies provided by the Agency and consumed by a DTS employee.
- Support the role of the on-site Desktop & Application Support technical lead essential to DABC's daily operations. This individual provides expertise across multiple disciplines (including servers, security, system interfaces, and business processes) and liaises directly with the DTS Enterprise support units for these disciplines. In addition, the technical lead directs the daily actions of the Metro Support Staff in their response to support demands and DABC Maintenance and Improvement Projects.
- Due to the nature of support functions at the DABC, DTS recognizes that the Infrastructure Support personnel located at the DABC are dedicated to the DABC mission with the following provisions:
 - Support staff must collaborate internally and externally to ensure that all critical support operations can be performed by an effective backup.
 - Support staff must collaborate in the effective training of DTS staff located outside the DABC to provide a wider understanding of DABC systems and support needs.
 - Support staff at the DABC are free to pursue alternative career options within DTS should they wish to do so.
 - Support staff performance monitoring and reporting channels will continue to be through their established DTS hierarchy.
 - The DTS Campus-D Manager and the I.T. Director located at the DABC will collectively monitor support staff workload and performance as the DABC's business continues to grow. This should allow a collaborative

approach to any change in the number of support staff located at (and dedicated to) the DABC's mission.

AGENCY RESPONSIBILITIES

The Department of Alcoholic Beverage Control agrees:

- To provide office space for DTS personnel at the work location. The work location of DTS personnel will not be subject to change by the agency without a duly signed written agreement between the agency and DTS. All agency furniture, computers, monitors, telephones, printers, fax machines, phone lines, LAN lines, and office supplies currently used to support DTS employees will remain available to DTS employees.
- To maintain close contact with the DTS IT Director assigned to the agency to help coordinate efficient DTS services within the agency.
- That all agency specific desktop computer hardware and software that is not related to a DTS employee desktop standard configuration or DTS employee software tool kit will be billed to the agency as a "pass through" expense.
- To provide space and accommodations for DTS employees' file, print, and storage requirements.

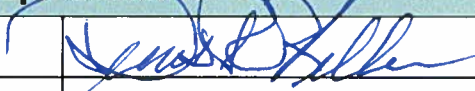

VERIFICATION AND AGREEMENT

The Department of Technology Services and the Department of Alcoholic Beverage Control agree that this Service Level Agreement, together with the associated product descriptions and other associated agreements, if any, constitute a binding agreement between both parties for the specified products and related services. The Department of Technology Services agrees to provide the specified services for the Department of Alcoholic Beverage Control as specified in the version of the product description current as of the date of this agreement, at the established rates, and for the period specified. The Department of Alcoholic Beverage Control agrees to pay for the services as specified.

Termination or Amendment

This agreement may be terminated only by mutual agreement. It may be amended if changes in circumstances warrant. Notice of intent to terminate this agreement or to negotiate amendments must be provided in writing to the other party at least 60 days in advance.
